YUGOSLAVIA TO OPEN NEW FACTORIES

WOODEN PRESSURE PIPES TO REPLACE IRON PIPES -- Ljubljana Slovenski Poročevalec,
27 Jul 50

In Pesnica, near Maribor, a temporary workshop for making wooden pressure pipes was set up by Joze Grabovsek recently. The first wooden pipes were used for the Maribor water system. In the beginning, the shop will produce 25 meters of pipe per day. At the end of 1950, it will produce 300 meters of pipe per day, or 7 to 8 kilometers per month.

The construction of a high-pressure [wooden?] pipe factory in Maribor is planned for the near future.

TO DOUBLE OUTPUT OF WINDOW GLASS -- Ljubljana Slovenski Porocevalec, 2 Aug 50

At present the only Yugoslav window glass factory at Pancevo is working at capacity, but it does not fill all the demand for window glass.

A new furnace with the necessary equipment for the production of window glass is scheduled to be completed by the end of 1950. With the new furnace, the production of window glass in the Panveco factory will be doubled, and the factory will not only meet all Yugoslav needs for window glass, but will produce some for export.

NEW CERAMICS COMBINE TO BEGIN OPERATION -- Ljubljana Slovenski Porocevalec,
18 Jul 50

The new ceramics combine at Pojatnjo near Zagreb will manufacture ceramic items for household use such as dishes, bathroom tiles, bowls, and other plumbing fixtures. It will begin operation at the end of 1950. In 1951 it will produce 10 million ceramic items. The machinery for the combine is being manufactured by Yugoslav factories.

COMPLETE CHEESE FACTORY -- Ljubljana Slovenski Porocevalec, 16 Aug 50

On Pag island in the city of Pag a cheese factory was completed recently. The installation of machinery has also been completed in the factory which will begin operation in the next few days. It will employ 30 workers who will produce 12 carloads of cheese per year. The island's 34,000 sheep will furnish about 5,000 liters of milk per day to the factory for processing into cheese.

TO PRODUCE POWDERED INK -- Ljubljana Slovenski Porocevalec, 27 Jul 50

Engineer Nikola Maric of the "Pelikan" Enterprise in Zagreb recently mastered the production of powdered ink. The mass production of this ink will save Yugoslavia 8 million dinars per year.
